THERMORY

Excellence in Wood

The Premium Wood Company Behind AUROOM

Thermory is the parent company and official wood supplier of AUROOM Saunas, globally recognized for its innovation in thermally modified wood.
This parthership represents the fusion of design and material innovation - combining premium craftsmanship with the world's best sauna wood.

Made in Europe

Thermory has over 25 years of experience and manufactures in Estonia for luxury brands around the world.

Global Leader in Thermally Modified Wood

Thermory is the world's largest producer of thermally modified wood, setting the benchmark for performance, durability, and aesthetics. Their patented heat-and-steam technology is trusted in over 50 countries worldwide.

Pioneer of Chemical-Free Wood Enhancement

Thermory perfected a 100% natural modification process - using only heat and steam, with no chemicals or additives. This process permanently improves the wood's stability. resistance, and color, making it one of the most sustainable materials in the building and wellness industries.

Certified Durability and Sustainability

Thermory's wood meets the highest durability classifications (Class 1 for rot resistance) and is FSC® certified, ensuring responsible sourcing from sustainable Nordic forests.

Recognized Aesthetic Excellence

Thermory wood is known for its luxurious tone and smooth finish, often used in architectural projects, spas, and designer homes worldwide. Its natural beauty and consistent quality have made it a preferred choice for premium brands and modern wellness spaces.

Creating moments of wellbeing

We come from the deep forests and harsh climate of the North, the birthplace of the sauna, where it has been treasured as a ritual for achieving mental and physical balance for thousands of years. We are convinced that this ancient legacy works equally well today, creating the moments of wellbeing necessary for people to live a fulfilled life.

Making saunas is our passion

Auroom has been making saunas for more than 20 years. We have a lifelong passion for timber and produce clean, pure, modern designs that are perfected down to the last detail. Our saunas are tailored to meet every need and refined by our craftsmanship. Our whole team of experts is dedicated to creating the most harmonious sauna experience possible. All our saunas are handcrafted, integrating years of experience and cutting-edge technology. We tackle every sauna project individually in order to provide the best possible solution for our clients. That is why we are able to offer wellness solutions for even the most demanding requirements, be they special home sauna projects or entire sauna complexes for spa hotels.

Saunas that are made to last

Every piece of timber we use in our saunas, however small a part it will play, is carefully selected from the high-quality materials at our disposal. In this way, we ensure the longevity of our products and avoid problems arising in the course of their use. We build with a wide range of timbers – if you place a special order, your imagination is only the limit.

Taking responsibility

We use only timber that has been responsibly sourced. We obtain timber from our parent company Thermory – the world's leading producer of thermally modified timber and sauna materials. This allows us to make our products available all over the world and ensures that the quality of our raw materials is consistent even in larger orders. Our saunas meet all global environmental standards and are certified accordingly.

Tailor-made saunas around the world

Your imagination is the only limit

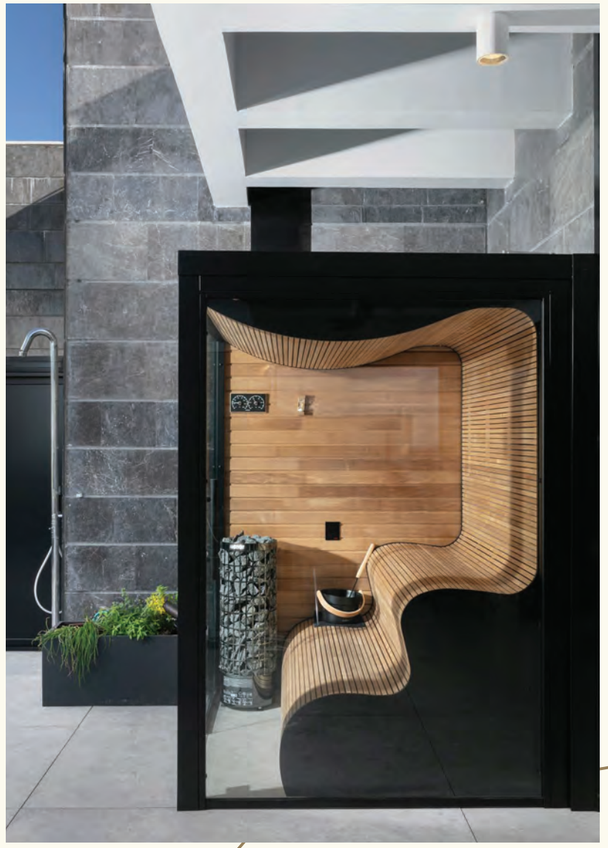

At Auroom & Allrecovery, we are able to offer exquisite tailormade options, be it a sauna for private or public purposes.

We are here to listen to your needs and wishes. Contact us and tell us your vision. We will help you make it a reality.

Indoor category

True relaxation in your home

Have you dreamed about making your home a place of true relaxation? A place where you can leave all your worries and stress behind and recharge yourself. An indoor sauna is the perfect choice for that.

You can have your own sanctuary in your living room or just a few steps from your bed. If you are a social animal, then a sauna in your home is a perfect excuse to invite friends or family over and catch up in a relaxing atmosphere.

Auroom indoor saunas are made to fit in your home. Because of technological advances, saunas are no longer confined to specific locations in the countryside or forest. It is increasingly common that even in small city apartments, a sauna is a natural part of the layout.

Cala

Compact tranquility

A small sauna that's big at heart, Cala offers the benefits and enjoyment of a sauna in spaces of all sizes. The Cala sauna is made from thermally modified aspen, which offers exceptional build quality alongside its attractive appearance.

This small sauna is quick to assemble and can be installed in practically any space. And with its straightforward electrical setup, simple controls and low energy demands, it's easy to use and cheap to run.

Vulcana

Unwind in style

Vulcana is a sauna that combines a stylish, modern design with the finest craftsmanship and superior materials. The deep golden colour and smooth surfaces of the thermo-aspen walls are elegantly offset by dark embossed Ignite cladding to create a uniquely tasteful and striking synergy. The stunning Ignite cladding in alder is used sparingly on the feature walls to accentuate the thermo-aspen's true splendour.

The allure of Vulcana's exquisite design is not only visual; ease of use and wellness are also built in, with the app-controlled heater saving effort, the angled backrest adding comfort and the large glass frontage creating an invitingly bright and open space.

Premium Enhancements

Our saunas meet your needs

Auroom saunas can also be adjusted for non-standard circumstances thanks to our highly skilled design and development team, who can quickly rework existing models or devise completely new solutions. So if you have a family member with special needs or a project that requires unique solutions, don't hesitate to contact us. We will always find the best and most comfortable solution.

Music

Speakers

Music choice gives the possibility to create different moods and feelings. The speakers are waterproof, white or black in colour,

Bluetooth player

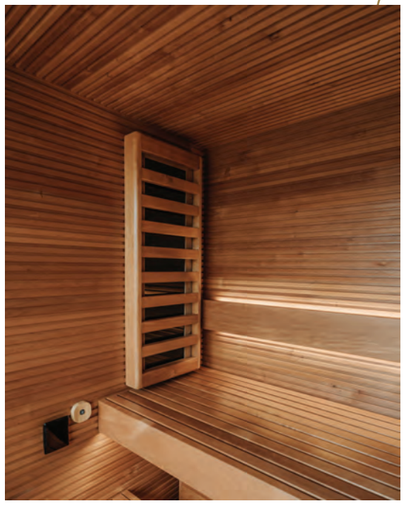

The Bluetooth player brings your favourite music wirelessly from your smartphone or tablet into the sauna. With the optional wall remote button you can control the audio playback effortlessly from inside.

Infrared Heating

Unlike traditional, infrared saunas don't heat the air around you. Rather, they use infrared lamps to directly warm your body's core temperature. Infrared sauna lovers say that the heat penetrates deeper than the warmed air from conventional saunas. This allows them to experience a more intense sweat at a lower temperature.

If you don't want to give up your regular sauna we offer the best of both worlds. A dual sauna is the perfect combination of the traditional sauna and the new-generation infrared sauna. If you are interested, then contact us and let's see what we can offer you.

Outdoor Category

Reconnect with nature from your own home

Have you dreamed of creating a personal retreat surrounded by nature? A space where you can breathe in the fresh air, unwind, and let the calm of the outdoors restore your balance?
An outdoor sauna is the perfect way to blend relaxation and nature.

You can design your private oasis in your backyard, on a terrace, or by the pool — just steps away from your home. Whether you enjoy peaceful solitude or gathering with friends, an outdoor sauna becomes the heart of every moment of connection and renewal.

Auroom outdoor saunas are built to withstand the elements while maintaining timeless elegance. Crafted with durable materials and refined design, they bring the luxury of spa-level wellness to your own garden — turning any outdoor space into a sanctuary for body and mind.

Mira

Little wonder

Sometimes simpler is better, and Mira's minimal, space-saving design has everything you need for a calming, enjoyable outdoor sauna without overcomplicating things.

Mira can be installed on terraces, balconies and smaller gardens, with the small, lightweight components enabling easy hoist-free assembly. The S and L size options, which can accommodate up to two and four users respectively, allow you to make the most of the available space in your outdoor area. There are also two colors available for the exterior cladding, with a stunning natural look and a sleek black finish to choose between.

Mira technical features

Basic set includes

Aurea

Effortless elegance

Introducing Auroom Aurea, a new generation of outdoor saunas crafted for comfort, durability, and timeless appeal.

Aurea balances clean lines, natural textures, and intelligent design. Its brushed thermo-radiata pine exterior creates a warm, textured look, while the waxed alder interior adds softness and sophistication.

Available in two distinctive shapes, the classic Aurea and the slanted Aurea Ascent, the collection offers flexibility for different architectural settings and design preferences. Both versions are available with or without an integrated floor, as well as with straight or corner bench layouts.

Thoughtfully integrated LED lighting highlights the benches, backrest, and terrace with a calm, layered glow, creating an elevated sauna experience indoors and out.

Barrel Saunas

Your cosy sanctuary at home

Step into the timeless tradition of barrel saunas, reimagined with modern design and refined craftsmanship.

Each sauna in the Auroom barrel collection is crafted from premium thermally modified pine – a material chosen for its durability, stability and beautiful natural character. This advanced wood treatment enhances resistance to moisture, weather and temperature changes, ensuring long-lasting performance in outdoor environments.

All models can be customised to suit your space and preferences – from exterior finishes and roofing to windows, heaters and lighting. Create a sauna experience that fits perfectly into your lifestyle.

Halo

Compact Elegance

Experience the joy of simplicity with Halo's space-saving, minimalist design that perfectly complements any outdoor setting. With a design that exudes modern functionality, this sauna provides all you need for a serene and satisfying bathing experience with zero fuss.

Halo is designed for comfort and durability, featuring a round shape that optimises heat distribution and energy efficiency. Inside this barrel sauna you'll find a cosy environment that's ideal for unwinding, while the exterior enhances any outdoor space with its rustic charm. Halo offers a touch of luxury, with a choice between the compact Cosy and spacious Comfy models, as well as an optional changing room for added convenience.

So if you have a family member with special needs or a project that requires unique solutions, don't hesitate to contact us. We will always find the best and most comfortable solution.

Mirrored Glass

Complete your sauna with premium finishing touches. Add a lockable door for extra security, upgrade to mirrored glass for a modern, reflective look, or incorporate juniper wood panels to bring unique texture and a naturally aromatic experience to your sauna interior.

Panoramic Outdoor View

Unlike fully enclosed sauna walls, outdoor barrel saunas can be designed to open your experience to the surrounding landscape. You can choose between a traditional full wood wall, a half panoramic glass panel, or a full panoramic glass wall that allows you to enjoy the scenery while relaxing in the warmth of your sauna.

Our clients come first

At Auroom, our clients always come first. We look after our sauna users and do everything we can to ensure that the quality of our products is uncompromising. To this end, we are always open to feedback from our clients and respond to all questions and concerns quickly.

The flexible and well-organised way we go about production enables us to offer the quickest delivery times in the industry.

All Auroom deliveries are insured and protected against accidents. In larger markets we are represented by approved local resellers who can help at every stage.

Our resellers are global

Auroom has a wide network of resellers across the globe. Thanks to Thermory as the world's leading producer of thermally modified timber and sauna materials, our saunas are loved all over the world.

AUROOM x AllRecovery

Thanks for trusting us and choosing excellence.

Two Years of Confidence

Every unit is backed by a comprehensive warranty and dedicated customer support.
